## KJ-300™ KJ-380™ TOP-HAT FULL PAGE DISPLAY™

The K-Jack Top Hat™ line was designed with the most asked for features of East Coast Papers. Built strong with a vaulted coin box and lock protector inside of the rack, it protects the lock from snow & ice in cold weather. There is no need to clean snow off the rack while collecting money. Our dry film lubricant on our coin mechanism was designed and has been proven durable for extreme East Coast weather conditions. The KJ-300™ and KJ-380™ have a new innovative design... a Full Length Door to display the entire front page. Newspapers are easy to load in the front door with a pouch under the shelf to hold the remainder not displayed. The Power door closer™ is standard with this rack.

All K-Jack newsracks are designed to operate with a standard K-Jack mechanical snap-out™ mechanism or our electronic Comp-U-Mech™ mechanism.
