KJ-860™ KJ-960™ SUPER-MATE™

Faced with the need for more page capacity, yet wanting to maintain the design concept of the KJ-840™ and KJ-940™ we designed the KJ-860™ and KJ-960™. By just increasing the height, we increased the page capacity by eight and one-quarter inches, and created two outstanding racks.

With the built-in features and design concept, you will enjoy the ease of low or no maintenance. Mounted on a wide base, these units are stable. At the newspapers discretion, for special locations, the base can be bolted down or filled with sand. Chaining is necessary for security reasons only.

All K-Jack newsracks are designed to operate with a standard K-Jack mechanical snap-out™ mechanism or our electronic Comp-U-Mech™ mechanism.

▼ STANDARD FEATURES AND EQUIPMENT

► APPEARANCE:

- Thirty-Eight standard colors
- Card Holders

► CAPACITY:
